

Ultra Hex Medicated Flush: Chlorhexidine Gluconate 0.3%

Product Specification: Ultra Hex medicated flush is a topical antiseptic solution with antibacterial properties formulated for dermatological conditions where an antiseptic flush may be beneficial.

Active Ingredients: Chlorhexidine Gluconate 0.3%

Ingredient Profile: **Chlorhexidine Gluconate** is a broad-spectrum antibacterial ingredient most commonly used as an effective skin cleanser for wounds, preoperative skin preparation and surgical scrubs. Bacterial and yeast infections cause many skin problems in dogs, cats and horses that can be controlled with antiseptic solutions containing Chlorhexidine. Symptoms of these infections include itching, pimples, bad odors and rashes. Chlorhexidine treats these symptoms and helps prevent skin areas from getting infected.

Directions: Apply by squeezing bottle onto affected areas.

Warning: Consult your veterinarian before use. Ask your veterinarian before use if your animal is using any other medications. Keep out of reach of children. In case of contact with eyes or mucous membranes, rinse thoroughly with water. If irritation develops or increases, discontinue use and consult your veterinarian immediately. Use only on dogs, cats and horses. Use topically only.

Storage: Store at room temperature 59-86F (15C-30C).
