

Ultra Hex Medicated Shampoo: Chlorhexidine Gluconate 4%

Product Specification: Ultra Hex medicated shampoo is an antiseptic soap-free shampoo with antibacterial properties used to manage and treat skin conditions responsive to Chlorhexidine.

Active Ingredients: Chlorhexidine Gluconate 4%

Ingredient Profile: **Chlorhexidine Gluconate** is a broad-spectrum antibacterial ingredient most commonly used as an effective skin cleanser for wounds, preoperative skin preparation and surgical scrubs. Bacterial or yeast infections cause many skin problems in dogs, cats and horses that can be controlled with antiseptic shampoo containing Chlorhexidine. Symptoms of these infections include itching, pimples, bad odors and rashes. Chlorhexidine treats these symptoms and helps prevent skin areas from getting infected.

Directions: Wet coat thoroughly with water. Apply sufficient shampoo over entire body to create rich lather. Allow to sit on animal between 5 and 10 minutes. Rinse off completely. Repeat procedure if necessary.

Warning: Consult your veterinarian before use. Ask your veterinarian before use if your animal is using any other medications. Keep out of reach of children. In case of contact with eyes or mucous membranes, rinse thoroughly with water. If irritation develops or increases, discontinue use and consult your veterinarian immediately. Use only on dogs, cats and horses. Use topically only.

Storage: Store at room temperature 59-86F (15C-30C).
